THIS IS UNEVALUATED INFORMATION 25X1 The purpose of working out the principles of 1955 production. Representatives of the managements of all enterprises under HV RFT were called to 25X1 these consultations. It was decided that the 1955 production plans may be be based strictly on so-called unterial control figures (Materialkontrolled materials will be available for 1955 production. In previous years, the production plans were not set up according to such figures but mainly according to the production capacity of the enterprises. The consultations, which lasted until 15 August 1954, mainly served the purpose of discussing the material control figures with the managements and planning heads of the individual enterprises who were called to these essaions in groups which corresponded to the "Industrial Groups" recently established in HV RFT. 25X		Construction	· .		NO. OF ENCLS.	• .	
25X1 1. Starting II August 1954, daily consultations took place at the Main Administration for Radio and Telecommunications Technology (RV RFT) for the purpose of working out the principles of 1955 production. Representatives of the managements of all enterprises under NF RFT were called to 25X1 these consultations. It was decided that the 1955 production plans are to be based strictly on so-called material control figures (Materialkontrollziffern) which have already been issued by MV RFT to the individual enterprises under it. These figures indicate what amounts of controlled materials will be available for 1955 production. In previous years, the production plans were not set up according to such figures but mainly according to the production capacity of the enterprises. The consultations, which lasted until 15 August 1954, mainly served the purpose of discussing the material control figures with the managements and planning heads of the individual enterprises who were called to these sessions in groups which corresponded to the "Industrial Groups" recently established in HV RFT. 25)	DATE OF					то	25X1
